PIG FEEDS

The new born piglet is fed **novatek Pig Creep pellets** from 3 weeks of age until 6 weeks. This high quality feed accelerates the maturity of the digestive system. The piglets are weaned at 4 weeks of age when they are a minimum weight of 7.5kg. Only change the feed to **novatek Pig Weaner pellets** after the piglet has consumed a minimum of 5kg of **novatek PIG Creep pellets**.

Pig guidelines	Feeding age	Kg Feed / pig placed	Weight target
novatek Pig Creep 	3 - 6 Weeks	5	12
novatek Pig Weaner 	7 - 10 Weeks	30	30
novatek Pig Grower 	11 - 16 Weeks	80	65
novatek Pig Finisher 	17 - 21 Weeks	90	95

The remaining range of **novatek Pig Feeds** are fed during the period of growth where the management practices are aimed at fast economical growth of pig meat and for this reason feeding is on a generous scale. It is important to not mix any other feeds with these balanced feeds as this will result in lower performance.

Reducing stress during this period is critical. Overcrowding in particular causes high stress. Supplying clean and cool drinking water together with feed is essential.

“Feeding for Prosperity”
